

## **Edward Domeracki**

### **Managing Partner, The IMPACT Group**

Mr. Domeracki has over 35 years of comprehensive global management and improvement experience leading to the development and application of innovative, accelerated approaches to strategy development and operational improvements. He has extensive experience with personal dynamics relating to the change process and change implementation involving a wide variety of organizations in fourteen countries on four continents.

He has developed and applied innovative tools while participating in over 100 projects in a wide variety of industries based on first-hand change management experience that has enabled a wide variety of organizations to quickly and measurably improve their operational effectiveness. Mr. Domeracki has done extensive consulting and conducted seminars throughout the world, and has worked with a wide variety of organizations in diverse settings.

As Director of Business Process Improvement for ABB Combustion Engineering, part of a \$30BUSD multi-national corporation, he developed and implemented innovative and accelerated approaches to Business Process Improvement and Activity Based Costing that produced dramatic operational results. During his 25-year career at ABB-CE, Mr. Domeracki held senior management positions in Accounting, Auditing, Enterprise Strategies, Project Management, Total Quality and Consulting. He is a certified facilitator in the “7 Habits of Highly Effective People” and has extensively lectured and conducted workshops globally.

Mr. Domeracki served for a year on the President’s Executive Exchange Program, reporting to the Assistant Secretary of the Navy, while working at the Pentagon. He obtained a Bachelors Degree in Accounting and Finance from American International College and an MBA from Western New England College where he served as an adjunct faculty member for 17 years in the Graduate School of Business Administration. Mr. Domeracki has also completed advanced management programs at Wharton, Harvard, RPI, and UCLA.
